Color atlas and textbook of human anatomy. Vol. 1, Locomotor system

Автор(ы): Kahle W., Leonhardt H., Platzer W.
Год изд.: 1986
Описание: A well-balanced combination of a full-fledged anatomic atlas and textbook, eminently useful to students and medical practitioners alike. Skilful visual approach to anatomy, which is a must in every physician's education, is happily wedded to a lucid text juxtaposed page by page to magnificent multicolor illustrations in such a manner that the concise description of the functional aspects of anatomy provideslet a useful guide for the perceptive student. Aspects of physiology and biochemistry are included to the extent they have a bearing on the material presented.

Оглавление:

General Anatomy [1]
Partsof the Body [2]
General Terms [2]
Principal Axes [2]
Principal Planes [2]
Directions in Space [2]
Directions of Movement [2]
Cells [4]
Cytoplasm [4]
Cell Nucleus [6]
Vital Function of Cells [6]
Tissues [8]
Epithelial Tissue [8]
Connective and Supporting Tissues [10]
Connective Tissue [10]
Cartilage [12]
Bone [14]
Development of Bone [16]
Muscle [18]
General Features of the Skeleton [20]
Joints Between Bones [22]
Continuous Joints Between Bones [22]
Discontinuous Joints Between Bones [24]
General Myology [30]
Auxiliary Features of Muscles [32]
Investigation of Muscle Function [32]
Systematic Anatomy of the Locomotor Apparatus [35]
Vertebral Column [36]
Cervical Vertebrae [36]
Thoracic Vertebrae [40]
Lumbar Vertebrae [42]
Sacrum [46]
Coccyx [48]
Ossification of Vertebrae [52]
Intervertebral Disks [54]
Ligaments of the Vertebral Column [56]
Joints of the Vertebral Column [58]
Vertebral Column Considered as a Whole [62]
Thorax [64]
Ribs [64]
Sternum [66]
Joints of the Ribs [68]
Movements of the Thorax [70]
Intrinsic Muscles of the Back [72]
Lateral Tract [72]
Medial Tract [74]
Short Muscles of the Nape of the Neck [76]
Body Wall [78]
Thoracolumbar Fascia [78]
Migrant Ventrolateral Muscles [78]
Prevertebral Muscles [80]
Scalene Muscles [80]
Muscles of the Thorax [82]
Intercostals [82]
Abdominal Wall [84]
Superficial Abdominal Muscles [84]
Function of the Superficial Abdominal Musculature [90]
Fasciae of Abdominal Wall [92]
Deep Abdominal Muscles [94]
Sites of Weakness in the Abdominal Wall [96]
Abdominal Wall from Inside [98]
Diaphragm [102]
Position and Function of the Diaphragm [104]
Sites of Diaphragmatic Hernias [104]
Pelvic Floor [106]
Pelvic Diaphragm [106]
Urogenital Diaphragm [106]
Bones, Ligaments, Joints [108]
Scapula [108]
Clavicle [110]
Joints of the Shoulder Girdle [110]
Humerus [112]
Shoulder Joint [114]
Radius [116]
Ulna [116]
Elbow Joint [118]
Distal Radioulnar Joint [120]
Continuous Fibrous Joint Between Radius and Ulna [120]
Carpus [122]
Individual Bones of the Carpus [124]
Bones of the Metacarpus and Digits [126]
Radiocarpal and Midcarpal Joints [128]
Movements in the Radiocarpal and Midcarpal Joints [130]
Carpometacarpal Joint of the Thumb [132]
Carpometacarpal Joints [132]
Intermetacarpal Joints [132]
Metacarpophalangeal and Digital Joints [132]
Muscles of the Shoulder Girdle and Upper Arm [134]
Classification of the Muscles [134]
Shoulder Muscles Inserted on the Humerus [136]
Dorsal Muscle Group [136]
Ventral Muscle Group [140]
Immigrant Trunk Muscles Inserting on the Shoulder Girdle [142]
Dorsal Muscle Group [142]
Classification of the Muscles [252]
Leg Muscles [254]
  Extensor Group [254]
  Peroneal Group [256]
  Posterior Leg Muscles. Superficial Layer [258]
  Posterior Leg Muscles. Deep Layer [260]
Talocrural, Subtalar and Talocalcaneonavicu lar Joint Muscles [262]
  Classification According to Function [262]
Intrinsic Muscles of the Foot [264]
  Muscles of the Dorsum of the Foot [264]
  Muscles of the Sole of the Foot [266]
Fascias of the Leg [272]
Tendon Sheaths in the Foot [274]
Skull [276]
  Ossification of the Skull [276]
  Special Features of Intramembranous Ossification [278]
Calvaria [280]
  Lateral View of the Skull [282]
  Posterior View of the Skull [284]
  Anterior View of the Skull [286]
  Inferior View of the Skull [288]
  Interior View of the Base of the Skull [290]
  Common Variants of the Interior Surface of the Base of the Skull [292]
  Sites of Transmission for Vessels and Nerves [294]
Mandible [296]
  Shape of Mandible [298]
Hyoid Bone [298]
Orbital Cavity [300]
Nasal Cavity [302]
Skull Shapes [304]
  Special Skull Shapes and Sutures [306]
  Accessory Bones of the Skull [308]
  Temporomandibular Joint [310]
Muscles of the Head [312]
  Mimetic Muscles of the Scalp [312]
  Mimetic Muscles in the Region of the Palpebral Fissure [314]
  Mimetic Muscles in the Nasal Region [314]
  Mimetic Muscles in the Region of the mouth [316]
  Muscles of Mastication [318]
Anterior Muscles of the Neck [320]
  Infrahyoid Muscles [320]
Muscles of the Head [322]
  Attachment to the Shoulder Girdle [322]
  Fascias of the Neck [324]
Topography of Peripheral Pathways [327]
Head and Neck [328]
  Regions [328]
  Anterior Facial Regions [330]
  Orbital Region [332]
  Lateral Facial Regions [334]
  Infratemporal Fossa [336]
  Superior View of the Orbit [338]
  Occipital and Nuchal Regions [340]
  Suboccipital Triangle [340]
  Parapharyngeal and Retropharyngeal Spaces [342]
  Submandibular Triangle [344]
  Retromandibular Fossa [346]
  Middle Region of the Neck [348]
  Thyroid Region [350]
  Ventrolateral Regions of the Neck [352]
  Scalenovertebral Triangle [360]
Upper Limb [362]
  Regions [362]
Deltopectoral Triangle [364]
Axillary Region [366]
Axillary Spaces [368]
Anterior Brachial Region [370]
Cubital Fossa [374]
Anterior Antebrachial Region [378]
Wrist. Palmar Surface [380]
Palm of the Hand [380]
Dorsum of the Hand [384]
Radial foveola [384]
Lower Limb [386]
Regions [386]
Subinguinal Region [388]
Saphenous Hiatus [390]
Gluteal Region [392]
Anterior Femoral Region [396]
Posterior Femoral Region [400]
Popliteal Fossa [402]
Anterior Region of the Leg [406]
Posterior Region of the Leg [408]
Medial retromalleolar Region [410]
Dorsum of the Foot [412]
Sole of the Foot [414]
Literature [418]
Index [426]
