The places and spaces of managerial and professional work are changing rapidly. Long-established routines and
disciplines of the personal office are being superseded in a multiplicity of new locations, such as 'hot desks', 'touchdown
areas', 'home offices', motorway service stations, airport lounges, cars, trains and planes. Drawing on original research,
this book analyses the impact of these developments on the experience of time and space, privacy and surveillance,
freedom and constraint in everyday working life.

Item Type: Book
Book Type: Authored Book
Date Type: Publication
Status: Published
Schools: Social Sciences (Includes Criminology and Education)
H Social Sciences > H Social Sciences (General)
Subjects: H Social Sciences > HB Economic Theory
H Social Sciences > HF Commerce
Publisher: Palgrave Macmillan
ISBN: 9780333949078
